Dear Mr. Garrick:

A cursory review of the materials submitted to the Division on November 10, 1994 in response to the Division's May 26, 1994 review letter has identified a couple minor concerns. First, your response references a letter from the BLM in Price regarding the post-mining land use of the area (see page 6, section 110.5 of your response). Please submit this document to us. Secondly, apparently the BLM (in Price) was not copied on this document. A phone conversation with Mr. Neil Simmons of the BLM confirmed that they had not received the response. Please send them a complete copy of the response, including the maps ASAP so that they can complete their review. The Division cannot grant approval without the BLM's concurrence.

If you have any questions or need additional clarification, please don't hesitate to give me a call.

Sincerely,

Lynn Kunzler  
Reclamation Specialist
